Is It Right For Me?

Do you rely on very fast internet for your work?

YES

NO

Do you plan on using it entirely in larger, urban areas?

YES

NO

A starlink Mini may be overkill, a mobile hotspot may be better, like the [Solis](#).

Large urban areas aren't ideal, a mobile hotspot may be better like [Solis](#).

Are you willing to buy extra power sources? (i.e. battery packs)

Yes

No

Are you okay with being flexible in finding places to set it up?

Maybe a bad fit

YES

NO

Do you expect great customer service?

You'll need to be flexible about where you work, since dense buildings or heavy forest can block your view of the sky.

NO

YES

With little to no support available, self-troubleshooting is essential.

The Starlink would be a great fit for you!
